Seagate® GoFlex® Desk For Mac®

EXTERNAL DRIVE
DISQUE EXTERNE

Perfect for when you need to:

- Take advantage of faster file transfer speeds
- Daisy-chain Thunderbolt™ compatible peripherals
- Backup using Time Machine®

Everything needed to transfer, store and backup files using Thunderbolt™ technology.

Thunderbolt™ technology is a revolutionary interface supporting high-resolution display and high-performance data devices through a single port. At 10Gbps, the Thunderbolt™ adapter is up to 20x faster than USB 2.0 and up to 12x faster than FireWire® 800. Transferring high-definition movies and other large files now takes seconds versus minutes when compared with older interface technologies.

Everything needed to use the GoFlex® Desk for Mac® drive with Thunderbolt™ enabled devices is included in the box, even the cable. The included GoFlex® Desk for Mac® drive can now take full advantage of the blazing-fast Thunderbolt™ connection on your computer. With dual Thunderbolt ports, it can support daisy-chaining up to 6 compatible Thunderbolt devices, minimizing clutter on your desktop.

Connect multiple devices to turn your computer into a powerful workstation with just one interface.

Highlights

- High-performance desktop hard drive, compatible with Thunderbolt™ displays and other devices
- 10Gbps Thunderbolt™ adapter is up to 12x faster than FireWire® 800 and up to 20x faster than USB 2.0
- Dual ports allow daisy-chaining up to 6 devices, minimizing clutter on your desktop
